

BMA services

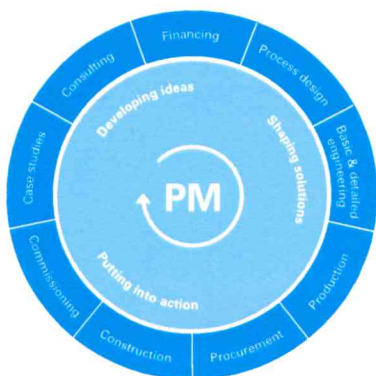

Throughout the life cycle of your plant.

The BMA team of engineers is the largest engineering force in the world for sugar, sweeteners and their by-products. We have bundled the individual skills, expertise and specialist knowledge of our sugar technologists, process engineers and automation experts in a unique international engineering network. We can find the best solution for you – in terms of

economic viability, plant efficiency and sugar quality. For single machines, whole stations and complete factories alike. What makes us unique: we will bring BMA engineering solutions to you, wherever you may be in the world. Our global resource management, and our shared tools and processes ensure we can.

A partner you can rely on.
